Collaborate, engage and support at WAIMH 2021

The organisers of WAIMH 2021 in Brisbane in June are encouraging members to collaborate, support and engage in this year's event like never before as the impact of the global pandemic continues to impact our lives, including the assessment and treatment of infant mental health. WAIMH in 2021 is a product of our new world by being held as a hybrid event and as such its importance cannot be underestimated. Its theme - Creating stories in infant mental health: research, recovery and regeneration – is all about collaborating, supporting and engaging with one another. Through the platform and program that has been developed, WAIMH 2021 will bring delegates together like never before whether they are there in person or attending virtually. To achieve this, WAIMH 2021 has some exciting new initiatives that will foster greater collaboration and engagement wherever you are in the world.
